# Westfalia Columbus

All models showcase innovative space saving design and up-to-the-minute style; clever use of materials brings a homely, luxurious feel, and the interiors are surprisingly roomy - light and airy by day, snug and cosy at night. Kitchens are so well thought-out, with space for pots and pans, a two-burner hob, good size worktop, and a user-friendly slide out fridge that you can access from inside or outside the vehicle.

The rear sleeping area offers both comfort and privacy and there is a choice of bed arrangements; the bathroom, though compact isn't without the room you need, with a large shower tub, wash basin, storage and shelves. Add to that optional leather upholstery and a choice of exterior colours and that's all the right
